

DASARI POORNA PAWAN KUMAR

AI & GENAI ENGINEERING — FULL STACK DEVELOPER

Jangareddygudem, AP, India

☎ +91 9704457974 ✉ pawanpoorna44@gmail.com 🔗 linkedin 🐙 github 🍳 CodeChef 📁 Portfolio

Professional Summary

AI & GenAI-focused Computer Science undergraduate with hands-on experience building **AI agents, LLM-powered applications, recommendation systems, and full-stack platforms**. Skilled in **Python, React.js, Flask, Llama 3, Scikit-learn, PostgreSQL/Supabase**, and browser automation, with experience developing and evaluating practical intelligent applications. Strong foundation in **AI engineering, backend development, and problem solving** with a focus on scalable solutions.

Education

Sasi Institute of Technology and Engineering

Aug. 2023 – May 2027

Bachelor of Technology in Computer Science and Engineering — CGPA: 8.1/10

Tadepalligudem

Experience

Huebits

June 2026 – July 2026

Backend Developer

Sasi Institute of Technology and Engineering

- Built an AI-assisted SkillSwap peer-learning platform using **Python, Flask, PostgreSQL/Supabase, and Scikit-learn**, with compatibility-based mentor recommendations, authentication, and skill management.
- Implemented session scheduling, completion tracking, and ratings to streamline mentor discovery and provide a structured peer-to-peer skill exchange workflow.

Projects

Jarvis AI OS | *Python, Llama 3, Whisper, Piper TTS, Playwright, SQLite* | [GitHub](#) | [Live Demo](#)

January 2026

- Designed a modular voice-controlled AI assistant integrating **Whisper STT, Llama 3, and Piper TTS** for natural, local computer interaction.
- Engineered a multi-agent architecture with **Browser, Research, and System agents** using intent detection, task planning, skill routing, and execution across **4 modular skills**.
- Implemented persistent **SQLite memory** and **Playwright automation** for contextual conversations, web navigation, application control, search, calculations, and extensible workflows.
- Achieved **100% task success** across 20 commands, **96.77% intent-routing accuracy** across 31 test cases, and **0.33 ms average local skill execution latency**.

SkillSwap Platform | *Python, Flask, PostgreSQL, Supabase, Scikit-learn, Pandas, JS* | [GitHub](#) | [Live Demo](#)

June 2026

- Designed an AI-assisted peer-learning platform matching learners with mentors based on skills, experience, availability, interests, language, and ratings, supporting **1,000+ user records**.
- Engineered a full-stack Flask application with authentication, profile and skill management, Scikit-learn compatibility scoring, mentor recommendations, and session scheduling across **3,500+ skill associations**.
- Developed and integrated the AI mentor-matching pipeline, achieving **100% accuracy** on the evaluated dataset and benchmarking **0.00 CLS, 37 ms TBT, and ~3.9 s average page-load time**.

Golden Gym Management System | *MERN Stack* | [GitHub](#) | [Live Demo](#)

October 2025

- Developed a full-stack gym management system using **React.js, Node.js, Express.js, and MongoDB** for centralized member, subscription, attendance, and trainer management.
- Implemented **secure authentication, role-based access control, RESTful APIs**, and an administrative dashboard to improve data management and operational efficiency.
- Optimized performance to achieve **968 ms LCP, 522 ms TTFB, 0 ms TBT, 0.00 CLS, ~1.2 MB page size, and 9 network requests**.

Technical Skills

Programming: Python, JavaScript, SQL

AI & ML: Artificial Intelligence, Machine Learning, Generative AI, NLP, Prompt Engineering, Recommendation Systems

LLMs & Agents: Llama 3, LLM Fundamentals, AI Agents, Agentic AI, Whisper, Piper TTS

Frameworks: Flask, FastAPI, React.js, Node.js, Express.js, REST APIs

Data & Databases: Scikit-learn, Pandas, PostgreSQL, Supabase, SQLite, MongoDB

Tools: Playwright, Git, GitHub, VS Code, AWS, Google Cloud

Achievements & Certifications

- **3-Star Rated Programmer on CodeChef**, Max Rating: **1644**; solved **844 CodeChef** and **79 LeetCode** problems.
- Participated in **IEEE Xtreme 19.0 Global Programming Hackathon**.
- **IEEE Computer Society Student Branch Member**.
- **Generative AI Leader Professional Certificate** – Google Cloud — Coursera, July 2026.
- **RAG and Agentic AI Professional Certificate** – IBM — Coursera, August 2026.
- **Build With AI Bootcamp** – Hack2Skill and Google, June 2026.
- **Basics of Python** – Infosys Springboard, March 2025.
